Connecticut Manufactured Housing Association

2017 Annual Meeting

Featured Speaker

Ken Corbin

Ken Corbin has an extensive background in the manufactured housing industry going back to the 1970's.

As President of the #1 Sales Center in the country, there were more homes sold at Ken's address than any other address anywhere in the United States. That record still stands.

He has worked with over 800 manufactured housing communities, retailers, manufacturers and associations.

Ken worked with a team of Wall Street professionals in acquiring a \$15 million private banking placement. That is the largest ever for a retailer and community group in our industry.

Ken has been recognized three times as the "Professional Speaker of the Year" in specialized housing and development. He's also the author of countless books on business growth, sales management and the problems facing the manufactured housing industry today.

Ken's newest writing, "Selling the American Dream of Home Ownership" was just completed. The audio book is over 10 hours in length and was just released this summer.

Ken's commitment:

You will leave his program with solid, resourceful information that you can take back and implement immediately to help grow your business!
